

SUBMISSION & SELCTION PROCESS

Presentation Opportunities

There are two opportunities for presenting your research papers:

- **Oral Presentation**
These presentations will be included within conference sessions that address key elements of the same topic.
- 'OR'
- **Poster Presentation**
Authors will have the opportunity to present their posters during a dedicated poster session.

The Technical Committee shall solely decide the format of presentation for each shortlisted submission.

Language

The working language for all presentations and discussions is **English**.

Selection Process

All submitted abstracts will be reviewed by the Conference Committee to ensure a high-quality conference. Submitted abstracts may be selected for either oral or poster presentation. Notification of acceptance along with the format (whether oral or via poster presentation) will be sent out around mid-July 2025.

The shortlisted authors shall be required to pay a nominal registration fee that will also include participation for all conference sessions over the 2-day event, lunches, refreshment breaks, and free admission to the parallel running exhibition.

If your submission is successful, your final paper will be published in the official conference proceedings. Detailed information and guidelines for preparing and presenting the final paper will be sent out to the authors in mid-July 2025.
